

Alcohol Assessment Test Manufacturer Lifeloc Technologies Announces New Line of Calibration Kits and Supplies for Breath Alcohol Test Kits and Alcohol Detectors

Lifeloc Releases EasyCal™ Universal Dry Gas Calibration Kit for Checking and Adjusting Alcohol Test Kits and Alcohol Detectors

Wheat Ridge, CO (PRWEB) September 12, 2006 -- Lifeloc Technologies (www.lifeloc.com), a leading manufacturer of alcohol assessment tests and alcohol test kits, announces the launch of a new line of calibration kits for use with alcohol detectors. Lifeloc's new EasyCal™ Kits help ensure testing accuracy making calibration easier and more convenient.

Lifeloc Technologies EasyCal Universal Dry Gas Calibration Kit (<http://www.lifeloc.com/supplies/calibration-equipment.html>) is compact and easy to use. The carrying case secures the gas canister during a calibration or calibration check (sometimes referred to as an accuracy check) on an alcohol test kit or alcohol detector. Each kit includes detailed instructions and training CD. Also featured in this new line is the EasyCal Universal Dry Gas Conversion Kit, which includes all the same features as the calibration kit yet provides additional space to hold and store your alcohol detector or alcohol test kit and necessary supplies.

Alcohol assessment tests are increasingly used in schools as well as corrections, law enforcement and transportation industries. The importance of accuracy in alcohol testing requires scheduled calibration and regular calibration checks. This applies to any make or model of breath alcohol detectors or breath alcohol test kits. Lifeloc Technologies provides a simple and effective solution with the EasyCal line of calibration and conversion kits.

For more information on Lifeloc, or to purchase an EasyCal Calibration or Conversion kit, please visit (<http://www.lifeloc.com/supplies/calibration-equipment.html>).

About Lifeloc Technologies:

For over twenty years, Denver based Lifeloc Technologies (www.lifeloc.com) has served the business, law enforcement and corrections communities by providing high-tech alcohol testing devices. Used in over 35 countries, Lifeloc's breath alcohol testing devices are recognized for their ease-of-use, reliability, and long life. Lifeloc products have been tested and approved by the National Highway Traffic Safety Administration, a part of the U.S. Department of Transportation, as well as multiple state forensic laboratories in the U.S. and in many other countries.
